

Classroom Environments

Our aim is that your child will learn in an environment that moves away from 'traditional' models, excites them and brings their learning to life in a inspiring and interactive manner. Our classrooms are 'immersed' in the theme of the learning journey. A quick visit to school and you could be lost in an overgrown rainforest, enter a medieval castle, walk with dinosaurs, be lost in space, explore American culture or even cross paths with penguins and polar bears in the Arctic Circle!

We encourage you to take a look at your child's class page to see for yourself.
